Preparing the teaching space and materials

Supplies

Presentation material

- The presentation material for Lesson 2 – What to do in case of fire can be found on the NouHätä! campaign website at nouhata.fi.
- When using the presentation material, follow the lesson plan.
- The latest version of the material should always be used.
- Use the presentation material so that you can see the lecturer's notes. They provide more information on the topic.
- Some of the video materials and online assignments are only available in Finnish.
- If the instructor **modifies** the source material or uses other **extra** material in the teaching, this must be mentioned separately. Your own extra material must be distinct from the training material provided by SPEK.

NouHätä! lessons

Lesson plan

Lesson: 2/4 What to do in case of fire

Duration: One lesson

Course of the training

LESSON START

- **Explain to the class:** In a fire, the air becomes life-threatening in minutes
- **Explain to the class:** Beware, smoke is dangerous!
- Objectives of the lesson

1. SECTION: Choosing the right fire extinguisher

- **Discuss together:** Can you identify the fire extinguishers in the pictures? Go over the pictures.
- **Video:** Using a handheld fire extinguisher and fire hydrant.
- **Discuss together:** What do you do in case grease, oil or stearin catches fire? Discuss with the class.
 - **Video:** Water causes a grease fire to burst into even bigger flames.
- **Discuss together:** What do you do if a flammable liquid catches fire? Discuss with the class.
- **Discuss together:** What do you do if an electrical appliance catches fire? Discuss with the class.
- **Discuss together:** What do you do if a solid material catches fire? Discuss with the class.
- **Discuss together:** What do you do if your or someone else's clothes catch fire?
- **Discuss together:** What do you do if a battery is smouldering or venting smoke? If a battery is on fire? Discuss with the class.
- **Task:** Find out where your school's fire extinguishers are and how to use them.
- **Recap:** Choosing the right fire extinguisher

2. SECTION: Evacuating

- **Explain to the class:** Escape routes
- **Explain to the class:** In the event of a fire in a building or apartment you are in, leave the building.
 - **Discuss together:** If access through the front door of your home was blocked by fire, how would you evacuate?
- **Game:** What should you do in case of fire elsewhere in the apartment building?
 - **Explain to the class:** In case of fire elsewhere in the apartment building, stay inside your home.
- **Game:** What should you do in case of fire in the neighbourhood?
 - **Explain to the class:** If there is a fire in the neighbourhood, stay inside your home.
- **Explain to the class:** In case of fire in a public space or building, follow the instructions you are given.
 - **Task:** Find out the escape routes in the building you are in and how they are marked.

IN CONCLUSION: Summary of the lesson and self-assessment

- **Discuss together:** Choosing the right fire extinguisher
- **Discuss together:** Evacuating in different situations
- Electronic self-assessment
